The very best publication i at any time study. It really is basic but shocks inside the fifty percent of the ebook. It is extremely difficult to leave it before concluding, once you begin to read the book.

Pursuant to a congressional request, GAO provided information on preschool and child care programs for children from birth through the age of 5, focusing on the: (1) total number of federally funded early childhood programs, excluding Department of Defense programs; (2) budget authority for key early childhood education or child care programs; (3) number of children served by these key programs; (4) eligibility criteria for the key programs; and (5) differences among key programs services. GAO found that: (1) in fiscal years 1992 and 1993, the government funded 93 early childhood programs; (2) 22 key programs provided services to at least 2 million children under age 5 and spent at least 3.66 billion in fiscal year (FY) 1992; (3) the 12 programs that could not provide specific data on children under age 5 had total budget authority of 3.71 billion for children of all ages; (4) many programs targeted the same population of children, with 13 programs targeting economically disadvantaged children; (5) the programs varying eligibility criteria led to disruptions in services due to slight changes in a child's family status; (6) in FY 1992, 31 programs provided education and child development services for young children and 27 provided child care, health referral, and social services; and (7) the key early childhood programs varied in the comprehensiveness of the services they provided.
