

Loose-Leaf Version for Economics in Modules

By University Paul Krugman, Robin Wells, Professor Margaret Ray

Worth Publishers, United States, 2014. Loose-leaf. Book Condition: New. 3rd. 274 x 211 mm. Language: English . Brand New Book. Adapted by Paul Krugman and Robin Wells from their bestselling principles of economics textbook, Economics in Modules is the only text for the principles course organized in the supremely accessible, highly effective modular format. Instead of chapters of standard length, the book covers the fundamentals of economics in 84 brief (4-10 page) modules divided into 26 sections. Economics in Modules offers the best of what makes Krugman/Wells a classroom favorite (story-telling approach, engaging writing, fascinating examples and cases), in a format students and instructors will love. Extensive educational research shows that students absorb more from shorter reading assignments than longer ones. And with coverage in self-contained modules, instructors can assign specific topics without asking students to read entire chapters.
